

# Shared Access secures £300 million in growth financing

*The new credit facility will fund further investment in communications infrastructure, focused on their tower business and in-building connectivity offering.*

UNITED KINGDOM, January 21, 2022 /EINPresswire.com/ -- Shared Access, an independent owner and operator of shared wireless infrastructure, has secured £300 million of long-term growth financing led by Post Road Group and Security Benefit.

Shared Access mast

The new credit facility builds on the successful last four years' funding relationship with Post Road Group and will fund Shared Access's next round of investment in communications infrastructure. Activity will be focused on Shared Access's tower business and its in-building connectivity offering. Shared Access has

designed and installed over 1,000 masts across the UK and Ireland. Additionally, the company owns and operates high capability in-building wireless infrastructure at key venues such as the Aviva Stadium in Dublin and the world-class Tottenham Hotspur stadium in London.

“

This new facility enables us to accelerate our pipeline growth and build new towers while growing our indoor connectivity business and wireless infrastructure portfolio through acquisitions.”

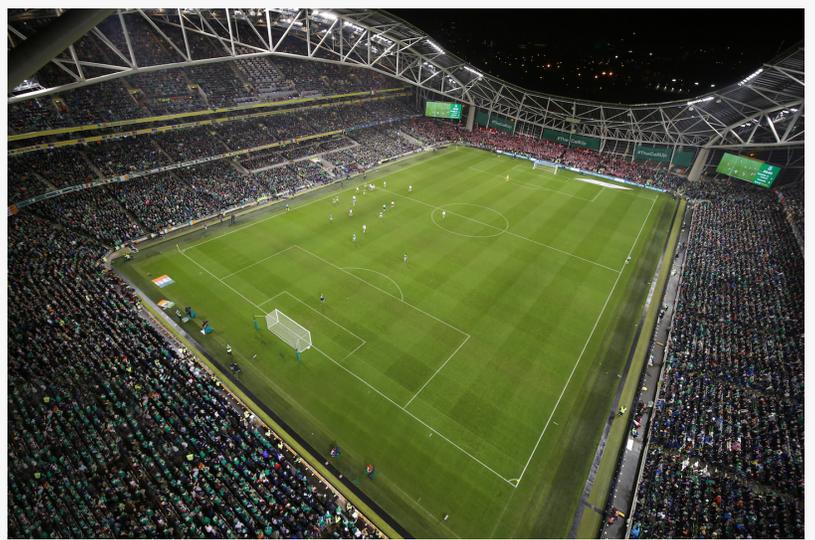

*Chris Jackman*

“This new facility enables us to accelerate our pipeline growth, build new towers and grow our indoor connectivity business and provides capital to grow our wireless infrastructure portfolio through acquisitions,” said Chris Jackman, CEO of Shared Access.

“It has been a tremendous pleasure to partner with the Shared Access team over the past four years to grow the company's tower portfolio and in-building wireless solutions business. We believe that as the UK and Ireland continue to upgrade to 5G networks, Shared Access is well positioned to be a leading wireless infrastructure partner for carriers and businesses throughout

the region,” commented Michael Bogdan, a Managing Partner at Post Road Group.

Peter Kelley, Associate Vice President of Investments at Security Benefit, noted, “We are delighted to partner with the Shared Access team on their future development. The wireless infrastructure industry is an attractive market, and we look forward to supporting the company as they continue to pursue their exceptional growth plan.”

Notes to Editors

About Shared Access

Shared Access is an independent wireless telecommunications infrastructure company. It works with mobile network operators and landlords to design, install and run systems that deliver great connectivity. Its portfolio of investments has been developed through strategic partnerships with major sporting, property, and government organisations (including the National Air Traffic Service), as well as key individual locations, such as airports and tunnels.

Shared Access has designed, installed, and acquired over 1,000 mast locations across the UK, Ireland and Spain and has developed critical infrastructure in a number of high-profile settings including the world-class new Tottenham Hotspur stadium. From Wi-Fi to mobile coverage and private 5G networks, Shared Access funds, designs, installs and manages installations over the long term for its customers.
