

# TRA Medical Imaging Foundation Awards 6 Scholarships

*Tacoma Community College students stepping into the career of medical imaging are being awarded financial assistance and mentoring.*

TACOMA, WASHINGTON, UNITED STATES, January 26, 2022

/EINPresswire.com/ -- The TRA Medical Imaging Foundation is pleased to announce that it has accepted six Tacoma Community College students (Class of 2023) into the Foundation's Scholarship program, three students in their first year of the [Radiologic Technology](#) program and three students in their first year of the [Diagnostic Medical Sonography](#) program. The TRA Scholarship program provides financial scholarships to assist scholars through their two year program.

TRA Medical Imaging Foundation

“

I am a graduate of the TCC ultrasound program. I look forward to working with the students to help them achieve their goals. I am proud to be a part of the TRA mentoring team.”

*Amanda Haggland,  
Ultrasound Technologist, TRA  
Medical Imaging*

Additionally, the scholars participate in the TRA Foundation's Mentorship Program. The uniqueness of the TRA Foundation Mentorship Program adds to the value of the scholarship award by offering students a non-evaluative opportunity to tap into existing knowledge, skills, and experience of TRA's Radiologists, Technologists and leadership to learn, brainstorm, problem solve and network. The mentoring provides for monthly 1-1 meetings and group sessions to allow for interaction and collaboration. In addition, a job shadowing component is available for students to work side-by-side with a technologist and to experience different work settings.

As the TRA Medical Imaging Foundation grows, it is our goal to expand more education and opportunities in CT, MRI, and Mammography, to create jobs, address the workforce shortage,

and impact the quality of healthcare services in our community.
