*The Business Research Company's
Medical Waste Management Global
Market Report 2022: Market Size, Trends,
And Forecast To 2026*

LONDON, GREATER LONDON, UK,
January 21, 2022 /EINPresswire.com/ --
According to '[Medical Waste
Management Global Market Report
2022](#) - Market Size, Trends, And Global

Forecast 2022-2026' published by The Business Research Company, the medical waste management market size is expected to grow from \$16.23 billion in 2021 to \$17.03 billion in 2022 at a compound annual growth rate (CAGR) of 5.0%. The change in the medical waste management market growth trend is mainly due to the companies stabilizing their output after catering to the demand that grew exponentially during the COVID-19 pandemic in 2021. The medical waste management market is expected to reach \$20.69 billion in 2026 at a CAGR of 5.0%. The rise in the use of disposable medical products in healthcare facilities is expected to drive the medical waste management market growth.

The global medical waste management market consists of the revenue generated from establishments providing services that include collection, transportation, storage, treatment, disposal, and recycling of waste. Biomedical waste is generated during the diagnosis, treatment, and immunization of human beings or other living beings from healthcare facilities.

Global Medical Waste Management Market Trends

Recycling is expected to become a key trend in medical waste management. The ongoing medical supplies shortage due to the COVID-19 pandemic has resulted in the need for more sustainable and recycling of medical products.

[Global Medical Waste Management Market Segments](#)
