

Global Non-Destructive Testing (NDT) And Inspection Market Trends, Strategies, Opportunities For 2022-2026

The Business Research Company's Non-Destructive Testing (NDT) And Inspection Global Market Report 2022: Market Size, Trends, And Forecast To 2026

LONDON, GREATER LONDON, UK,
January 21, 2022 /EINPresswire.com/ --
According to 'Non-Destructive Testing (NDT) And Inspection Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026' published

by The Business Research Company, the non-destructive testing and inspection market size is expected to grow from \$7.40 billion in 2021 to \$8.49 billion in 2022 at a compound annual growth rate (CAGR) of 14.6%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The [NDT and inspection market](#) is expected to reach \$11.89 billion in 2026 at a CAGR of 8.8%. Rapid growth in industrialization and urbanization across the globe is expected to propel the growth of the NDT and inspection market in the coming years.

The NDT and inspection market consist of sales of NDT and inspection services by entities (organizations, sole traders, and partnerships) that are engaged in testing and inspection services. Non-destructive testing is the method of examining, testing, or assessing products, parts, or assemblies for discontinuities or discrepancies in functionality without sacrificing the part's or system's serviceability. NDT techniques are used in production lines, on-site inspections, and fabrication units to maintain product reliability, manufacturing process, uniform quality level, and attain lower product costs.
