

Warranty Management System Market Forecast to Reach a CAGR of 14.7% by 2027 | Key Development Opportunity by Players

#3200, SEATTLE, WASHINGTON, UNITED STATES, January 21, 2022 /EINPresswire.com/ -- The Coherent Market Insights research report offers a complete overview of the [Warranty Management System Market](#), with details on the competitive landscape and the profiles of the key companies operating in the business. The paper includes the fundamentals as well as developments made by various applications. Share and the most recent trend gaining traction in the market that raises awareness of the Warranty Management System Market.

The study aims to provide actionable insights on global market growth estimates based on historic growth analysis and the current industry condition.

The global warranty management system market was valued at US\$ 20,947.1 Bn in 2019 and is forecast to reach a value of US\$ 62,582.8 Bn by 2027 at a CAGR of 14.7% between 2020 and 2027.

Due to a shortage of experienced staff and technical competence, OEMs face a variety of obstacles when it comes to implementing WMS solutions. Furthermore, manufacturers are looking to outsource their warranty processing services to third-party providers in order to minimise total warranty processing time and operational expenses. Furthermore, OEMs are increasingly outsourcing warranty-related tasks in order to maximise resource utilisation for their core processes. Manufacturers of communication devices and equipment, automobiles and automotive parts, and healthcare gadgets, for example, are expanding their in-house maintenance by outsourcing repair of items with warranty provisions (personal computers, hard drives, and so on).

Rise in the manufacturing sector is propelling growth of the global warranty management systems market. Automotive industry is one of the lucrative industry for warranty management systems. So expansion of automotive sector is accelerating growth of the market. According to the India Brand Equity Foundation, domestic automobiles production increased at 2.36% CAGR between FY16-20 with 26.36 million vehicles being manufactured in the country in FY20. Overall, domestic automobiles sales increased at 1.29% CAGR between FY16-FY20 with 21.55 million vehicles being sold in FY20.

Launch of new product by key player for geographical expansion is again accelerating growth of the market. For instance, in November 2020, Tavant, a digital products and solutions company for the manufacturing industry, announced the launch of a warranty claim handling software solution for Daimler Trucks Asia (DTA) in Taiwan. Named Falcon+, the solution powered by Tavant Warranty platform, improves transparency, increases business agility, and drives better decision making.
