

# Farmaka Roxxia Eudermic Emulsion - Seborrheic dermatitis control finally available in USA

*One of the most used moisturizers in Europe, effective to relief the Seborrheic dermatitis symptoms, finally lands in USA.*

ARLINGTON HEIGHTS, IL, UNITED STATES, January 25, 2022

/EINPresswire.com/ -- Seborrheic dermatitis (SD) is a very common skin disorder, but the diagnosis may be challenging due to the variety of its signs and symptoms, often similar to those of other diseases. Seborrheic lesions are characterized by red, demarcated, greasy-looking plaques, and may look alike to those seen in psoriasis, rosacea, allergic contact dermatitis, or tinea corporis. Patients with SD face many challenges during their life with this condition: difficulties in finding a name for their disorder, the burden of chronic, relapsing disease, difficulties in finding the right treatment.

More than 20 years ago, Farmaka, an independent Italian pharmaceutical company, launched the product line "Kouriles", aimed to relieve the SD symptoms. Since his launch, thousands of persons with SD sensitive skin found relief on using Kouriles on daily basis, replacing products such steroids or antifungal creams. Only very recently Farmaka launched the same product line in USA, under the name [Roxxia](#).

Roxxia Eudermic emulsion original formulation features three ingredients working in synergy. Hyaluronic Acid: a key component of the skin with soothing and moisturizing properties. Sebomine: a natural enzymatic complex that reduces oily skin. Norgel: reticulated gel complex with glycerin, provides the skin with long-term hydration.

Regular application combats the signs of dry and sensitive prone skin\* and helps support the skin's protective function.

Roxxia is available on the main [online stores](#) and on the best cosmetic stores.

Roxxia is the U.S. tradename of Kouriles, a complete line of innovative formulations marketed in Europe since 1995. Roxxia and Kouriles are registered trademarks of Farmaka, an independent pharmaceutical company founded in 1969 and based in Milan, Italy. Please visit [www.farmaka.com](http://www.farmaka.com) to learn more about Farmaka's technology and product portfolio.

Roxxia is distributed in the U.S. by ABCD Labs LLC.

\* Dermatology clinical trials carried out on more than 250 patients.

#### DIRECTIONS FOR USE

Wash hands. Cleanse the application area with lukewarm water and a mild soap; gently pat-dry with a clean towel. Apply a sufficient amount of ROXXIA with your fingertips, gently massaging-in until absorbed. There is no need for rinsing. Use twice a day; repeat application whenever necessary. Do not apply to broken skin, open wounds, animal bites or burns.

#### WARNINGS & PRECAUTIONS

Keep out of reach of children. Avoid contact with eyes. In case of contact with eyes, rinse thoroughly with lukewarm water. Do not use in case of known or suspected hypersensitivity to one of the ingredients. Stop use if rash, irritation or discomfort develops. Use only as directed. Roxxia is not intended to diagnose, treat, cure or prevent any disease. Store at room temperature. Do not expose to heat source or direct sunlight.

#### FOR EXTERNAL USE ONLY

AVOID RELEASE TO THE ENVIRONMENT AFTER USE

#### EUDERMIC EMULSION FOR FACE AND SCALP

NOURISHING AND SOOTHING  
COMBATS DRY SKIN  
SUITABLE FOR SENSITIVE PRONE SKIN

CLINICALLY AND DERMATOLOGICALLY TESTED

1 fl. oz.
