

World renown neuroscientists, Dr. Amir Amedi, to kick-off Genius 100 Foundation “GENIUS OF...” webinar series

Inspired by Einstein, “The GENIUS OF...” was created to share a uniquely diverse and unmatched knowledge base

NEW YORK, NEW YORK, USA, January 24, 2022 /EINPresswire.com/ -- Genius 100 Foundation will launch [“THE GENIUS OF...” webinar series on Thursday, January 27th at 12noon/ET](#)

featuring world renown neuroscientist, professor of Psychology, founder of Amedi Lab (a global innovation space dedicated to the study of the human brain) and Genius 100 Visionary.

“

Technological tools, based on the understanding of the human brain, allow us and others to decipher the mysteries of the brain and map it in an unprecedented way”

Dr. Amir Amedi, Founder of Amedi Lab and Genius 100 Visionary

For this special event, Dr. Amedi will be interviewed by Ambassador Ido Aharoni, who served as Israel's longest-serving Consul General in New York and the Tri-state area for six years, overseeing the operations of Israel's largest diplomatic mission worldwide, and a global ambassador of Genius 100 Foundation.

"A continuous use of technology can cause cognitive and emotional problems. The challenge we deal with is how to turn the equation around and use technologies to develop tools that will overcome problems; from hearing and vision problems to emotional problems and also help develop tools to rehabilitate the brain and stop its

degeneration. The technological tools, based on the understanding of the human brain allow us and others to decipher the mysteries of the brain and map it in an unprecedented way, “ Dr. Amir Amedi

Recently, Dr. Amedi has given several keynote lectures for global audiences, titled, The Brain as a

Healing Tool, to address both the impact and opportunities of omnipresent exposure to technology.

One Amedi's primary discussion points was answering "How touch and sounds can heal your brain and mind?" and sharing how his novel techniques and insights from neuroscience can help fight hearing impairment, seeing impaired, brain degeneration diseases like AD and dementia, anxiety, depression, pain and claustrophobia.

Today, an article titled, "The Israeli lab Where you can hear sights and feel sounds", about his work, was published in Israel21c.
