

# Squarewebsites Releases Walkthrough Video of Chrome Extension Tool

KETCHUM, IDAHO, UNITED STATES, January 25, 2022 /EINPresswire.com/ -- Squarewebsites develop website plugins to instantly help bring your website ideas to life. But, navigating through the plethora of plugins and integrations can be confusing and at times even frustrating. To counteract that confusion, Squarewebsites recently released a 26 minute, in-depth video walking through their [Chrome Extension tool](#).

The Chrome Extension tool for website admins allows users to edit, tweak, and copy their pages instantly. But, to make sure users receive the most out of their plugins, Squarewebsites stepped in to create their Chrome Extension tutorial video. The video itself breaks down into two main sections: how to enable certain options such as navigation tools and code editing, and how to enable the core functions such as UI tweaks and copying pages from Squarespace 7.0 to 7.1.

The tutorial video is available for free on YouTube by visiting the SquareWebsites channel or by searching "SquareWebsites [Pro Extension Walkthrough](#)." Visit the video directly by following this link: [Pro Extension Walkthrough](#).
