

Skillable Announces Addition of a Fifth Datacenter, Increasing Global RAM Capacity to 186TB

The company also plans to add an additional 50TB within the next six months

NEW PORT RICHEY, FLORIDA, UNITED STATES, January 26, 2022

/EINPresswire.com/ -- [Skillable](#)

announced today that its newest datacenter in Singapore is live and successfully supporting lab launches in the Asia-Pacific region.

This new datacenter is Skillable's fifth location and its 15TB of RAM, as well as added capacity across the other datacenters, brings the company's total global RAM capacity to 186TB.

"This additional datacenter and increased capacity overall enable us to support the exponential demand we've experienced from our customers," says Corey Hynes, Chief Executive Officer of Skillable. "In the last two years, we've increased our capacity 174% and we plan to increase capacity another 50% within six months."

“

Our capacity investment positions us ahead of our customers' growth and opens new opportunities for what they can achieve with hands-on skilling for their customers, partners and employees."

Corey Hynes, CEO of Skillable

Skillable's lab development platform enables customers to develop hands-on scored labs using their software in live environments - as opposed to simulations - across a variety of real-world scenarios including continuous skilling, customer support, marketing events and conferences and sales enablement.

In its tenure, Skillable has supported 22 million lab launches, with an average of 20,000 daily launches and 5.7 million lab launches in 2021. The company is also scaled to support more than 40,000 concurrent users, supporting a variety of skilling programs around the world.

"Our capacity investment positions us well ahead of our customers' growth and opens new opportunities for what they can achieve with hands-on skilling for their customers, partners and employees," continues Corey. "I'm proud of what our infrastructure team has accomplished and look forward to seeing the new and diverse skilling programs our customers will create."
