Uveitis Treatment Market

“

Uveitis Treatment Market by Drug Class (Anti-inflammatory, Antimicrobial Drugs, Immunotherapy & Targeted Therapies, & Others), Disease Type (Anterior Uveitis, Posterior Uveitis, Intermediate Uveitis)”

Allied Market Research

Chief reasons for market fluctuations

Rise in prevalence of uveitis, potential drugs in pipeline, and surge in healthcare expenditure worldwide drive the growth of the global uveitis treatment market. However, unknown etiology of uveitis hampers the market growth. On the contrary, higher number of unmet needs for treatment of uveitis and growing prospects in emerging market are expected to create lucrative opportunities in the near future.

□□□□□-□□ □□□□□□□□ □□□□□□□□:

- 1) The Covid-19 pandemic and followed by lockdown has affected several manufacturing industries.
- 2) The prolonged lockdown resulted in a disrupted supply chain and increased the prices of raw materials.
- 3) However, as the world has been recovering from the pandemic, the market is estimated to get back on track.

The anti-inflammatory segment held the largest share

The anti-inflammatory segment dominated the global uveitis treatment market in 2019, accounting for nearly two-fifths of the market, owing to easy accessibility of the drugs, increase in prevalence of uveitis, and preferable usage of anti-inflammatory in treatment of the disease. However, the immunotherapy and targeted therapies segment is projected to register the fastest CAGR of 5.8% during the forecast period, owing to cost effectiveness, rise in adoption of immunotherapy and targeted therapies for treatment of severe uveitis, and increase in R&D activities.
