WASHINGTON, DC, USA, January 26, 2022 /EINPresswire.com/ -- Simply Investing announces the launch of its stock Report & Analysis Platform. This newest entrant in the fintech space, is a SaaS web application that eliminates the complexity and fear of stock selection. This Platform serves as a go-to resource for both beginner and experienced investors, it separates high-quality stocks from those that are to be avoided.

- Displays high-quality dividend-paying stocks that are priced low (undervalued)
- Displays stocks to avoid, that are both non-quality (high risk) and priced high (overvalued)
- With [more than 20 features available](#), also allows you to quickly and easily analyze stocks with confidence

When it comes to investing the SI Platform helps you earn more, save time, and reduce your risk. Start building your own stream of (growing) passive income each year, regardless of what happens in the stock market.
