

Awareness About Immunization Benefits Is A Key Factor In The Vaccines Market Growth

*The Business Research Company's
Vaccines Global Market Report 2022 –
Market Size, Trends, And Global Forecast
2022-2026*

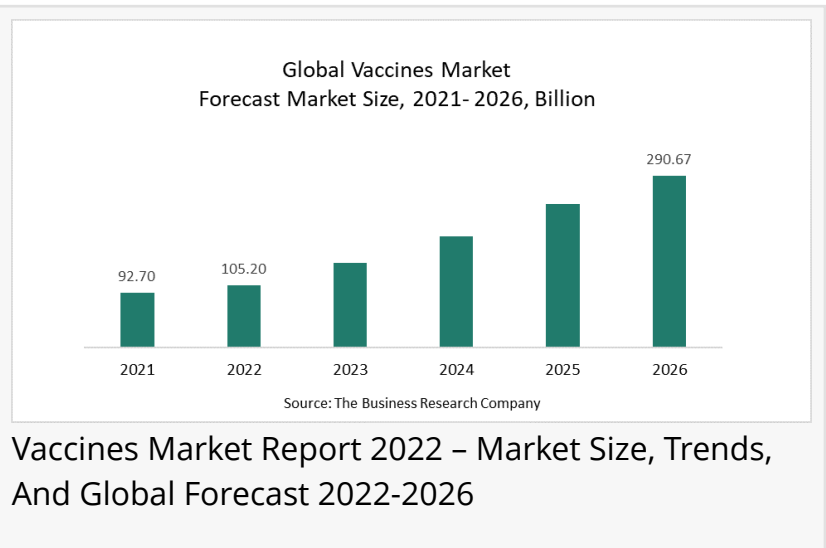

LONDON, GREATER LONDON , UK,
January 27, 2022 /EINPresswire.com/ --
Rising awareness on immunization and
vaccination benefits in emerging
markets is consistently driving the
global [vaccines market](#) growth. World
Health Organization (WHO) is taking
initiatives to increase awareness of
immunization through global vaccine action plan (GVAP) and global Immunization vision and
strategy (GIVS). They aim to strengthen routine immunization, control morbidity and mortality
from vaccine preventable diseases and help countries to immunize more people with a greater
range of vaccines. The Organization accomplishes this work through its biological program, the
WHO Collaborating Centers, and the WHO Expert Committee on Biological Standardization
(ECBS).

The global vaccines market size is expected to grow from \$92.70 billion in 2021 to \$105.20 billion
in 2022 at a compound annual growth rate (CAGR) of 13.5%. The slow decline is mainly due to
the outbreak of COVID-19 that has led to deferment of immunocompromised treatments. The
market is expected to reach \$290.67 billion in 2026 at a CAGR of 28.9%.

The global vaccines market has been witnessing multiple strategic initiatives and mergers and
acquisitions in the recent years. Top companies in the market are strategically acquiring start-
ups and mid-sized companies to broaden products and services. For instance, in February 2019,
Bharat Biotech acquired Chiron Behring Vaccines, a clinical biotechnology company, one of the
leading manufacturers of rabies vaccines across the globe. Similarly, in September 2021, Sanofi,
a France based healthcare company, acquired Translate Bio, an mRNA therapeutics company

developing potentially transformative medicines to treat diseases caused by protein or gene dysfunction, for a deal amount of \$3.2 billion to develop mRNA vaccines. Companies in the industry are increasingly realigning their portfolios and pursuing profitable inorganic growth opportunities. Additionally, M&A interest is also being fueled by stronger corporate balance sheets, liquid debt markets, and continued favorable interest rates globally.

Major players covered in the global vaccines industry are AstraZeneca, Emergent Biosolutions, Glaxosmithkline, Merck, Pfizer, Sanofi Pasteur, Abbott, Astellas Pharma, Bavarian Nordic, CSL Limited, Daiichi Sankyo Company, Johnson & Johnson, Mitsubishi Tanabe Pharma Corporation, Serum Institute of India, Takeda Pharmaceutical Co. Ltd., Biological E Limited, BiondVax Pharmaceuticals Ltd, Bristol-Myers Squibb, Inovio Pharmaceuticals Inc., Madison Vaccines Incorporated, NOVARTIS AG, Novavax Inc., Panacea Biotec, Sinovac Biotech Ltd., Valneva SE, and VBI Vaccine Inc.

North America was the largest region in the vaccine market in 2021. The Middle East is expected to be the fastest growing region in the forecast period. The regions covered in the vaccine market report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East and Africa.

TBRC's global vaccines market segmentation is divided by type into anti-infective vaccines, autoimmunity, others (cancer and others), by technology into conjugate vaccines, inactivated and subunit vaccines, live attenuated vaccines, recombinant vaccines, toxoid vaccines, by route of administration into intramuscular (IM), subcutaneous (SC), oral, others, by valence into monovalent, multivalent, by distribution channel into institutional sale, hospital pharmacies, retail pharmacies.

[Vaccines Global Market Report 2022](#) – By Type (Anti-Infective Vaccines, Autoimmunity, Others (Cancer And Others)), By Technology (Conjugate Vaccines, Inactivated and Subunit Vaccines, Live Attenuated Vaccines, Recombinant Vaccines, Toxoid Vaccines), By Route of Administration (Intramuscular (IM), Subcutaneous (SC), Oral, Others), By Valance (Monovalent, Multivalent), By Distribution Channel (Institutional Sale, Hospital Pharmacies, Retail Pharmacies) – Market Size, Trends, And Global Forecast 2022-2026 is one of a series of new reports from The Business Research Company that provides a vaccines market overview, forecast vaccines market size and vaccines market growth for the whole market, vaccines market segments, geographies, vaccines market trends, vaccines market drivers, vaccines market restraints, leading competitors' revenues, profiles, and vaccines market market shares.
