

Stable Economic Growth Boosts Demand For The Hematology Drugs Market

*The Business Research Company's
Hematology Drugs Global Market Report
2022 – Market Size, Trends, And Global
Forecast 2022-2026*

LONDON, GREATER LONDON, UK,
January 28, 2022 /EINPresswire.com/ --

The hematology drugs market growth is aided by stable economic growth forecasted in many developed and developing countries. The International Monetary Fund (IMF) stated that the global GDP growth rate was 3.3% in 2020 and 3.4% in 2021. Recovering commodity prices, after a significant decline in the historic period is further expected to aid the market growth. Developed economies are also expected to register stable growth during the forecast period. Additionally, emerging markets are expected to continue to grow slightly faster than the developed markets in the forecast period. This is expected to increase spending on healthcare services, thereby driving the demand for hematology drugs.

[The global hematology drugs market size](#) is expected to grow from \$33.06 billion in 2021 to \$36.13 billion in 2022 at a compound annual growth rate (CAGR) of 9.3%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The hematology drugs market share is expected to reach \$73.67 billion in 2026 at a CAGR of 19.5%.
