

Ammonia Market Report 2022-2027, Share, Size, Growth, Outlook, Forecast

Ammonia (NH₃) represents a colorless gas and inorganic compound with a distinct odor.

SHERIDAN, ALABAMA, UNITED STATES, January 28, 2022 /EINPresswire.com/ -- According to the latest report by IMARC Group, titled "Ammonia Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2022-2027," the [global ammonia market](#) reached a value of US\$ XX Billion in 2021. Looking forward, IMARC Group expects the market to grow at a CAGR of XX% during 2022-2027.

Ammonia (NH₃) represents a colorless gas and inorganic compound with a distinct odor. It occurs naturally throughout the air as well as in soil, plants, water, and animals. Ammonia is commonly used in manufacturing ammonium nitrate fertilizers, which discharge nitrogen in the soil to promote growth in farm crops or plants. It also finds extensive applications in the production of plastics, textiles, explosives, pesticides, coloring agents, etc. As a result, ammonia is widely utilized as a purifying agent in water treatment plants and as a refrigerant in heating, ventilation and air conditioning (HVAC) systems, etc.

We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Global Ammonia Market Trends:

The escalating demand for efficient and nitrogen-rich ammonia-based fertilizers and agrochemicals to ensure optimal food production is one of the primary factors driving the

ammonia market. Besides this, the inflating adoption of ammonia in manufacturing detergents and cleaning products is also propelling the market growth. Furthermore, the expanding population and the decreasing levels of arable lands available for crop cultivation are acting as significant growth-inducing factors. Additionally, the rising utilization of ammonia in breaking down household grime and eliminating stains of vegetable oils, fats, cooking grease, etc., from tubs, sinks, toilets, countertops, and tiles is further catalyzing the market growth. Moreover, the elevating need for ammonium nitrate for mining and explosive applications is positively influencing the global market. Apart from this, various product innovations, such as the development of green ammonia through sustainable technologies, are anticipated to bolster the ammonia market over the forecasted period.

Global Ammonia Market 2022-2027 Analysis and Segmentation:

Competitive Landscape with Key Players:

The competitive landscape of the industry has also been examined along with the profiles of the key players being:

Achema AB
BASF SE
CF Industries Holdings Inc.
Koch Industries Inc
Linde plc
Nutrien Ltd
OCI N.V.
Orica Limited
PJSC Togliattiazot
Saudi Basic Industries Corporation
Yara International ASA.

Breakup by Physical Form:

Anhydrous Ammonia
Aqueous Ammonia

Breakup by Application:

MAP and DAP
Urea
Nitric Acid

Ammonium Sulfate
Ammonium Nitrate
Others

Breakup by End-Use Industry:

Agrochemical
Industrial Chemical
Mining
Pharmaceutical
Textiles
Others

Breakup by Region:

North America (United States, Canada)
Europe (Germany, France, United Kingdom, Italy, Spain, Others)
Asia Pacific (China, Japan, India, Australia, Indonesia, Korea, Others)
Latin America (Brazil, Mexico, Others)
The Middle East and Africa (United Arab Emirates, Saudi Arabia, Qatar, Iraq, Other)

Key Highlights of the Report:

Market Performance 2015-2021
Market Outlook 2022-2027
Porter's Five Forces Analysis
Market Drivers and Success Factors
SWOT Analysis
Value Chain
Comprehensive Mapping of the Competitive Landscape

Note: If you need specific information that is not currently within the scope of the report, we can provide it to you as a part of the customization.
