As the novel coronavirus (COVID-19) crisis takes over the world, we are continuously tracking the changes in the markets, as well as the purchase behaviours of the consumers globally and our estimates about the latest market trends and forecasts are being done after considering the impact of this pandemic.

Market Trends:

The global market is primarily driven by the rising demand for cosmetic dental services, including professional teeth whitening and oral restorations through dental fillings. Furthermore, the increasing prevalence of oral diseases among the masses has provided an impetus to the requirement of dental insurance policies in an attempt to cover treatment expenditures while accessing premium-quality care. Moreover, the rising awareness regarding oral hygiene among individuals has also positively influenced the market growth. Besides this, numerous initiatives

Dental Insurance Market

undertaken by the governments of several countries to enhance healthcare benefits have impelled customers to invest in dental insurance, thereby contributing to the market growth across the globe.
