Ltd., Kempf Enterprises Ltd. and more.

This report covers the sales volume, price, revenue, gross margin, manufacturers, suppliers, distributors, intermediaries, customers, historical growth and future perspectives in the Refurbished And Used Mobile Phones.

Key Takeaways of Refurbished and Used Mobile Phones Market Study

Refurbished and used mobile phones are adopted by various startups, industries, institutes, and commercial offices in order to cut costs.

Lack of sales and distribution channels is restricting the growth of the refurbished and used mobile phones market

PMR reports that, the demand for mid-priced branded refurbished and used mobile phones is projected to increase at a striking CAGR during the forecast period.

As compared to other regions, the sales of refurbished and used mobile phones are projected to be high in the Asia Pacific region. Significant market potential exists in countries in APEJ, such as China and India.

The trend of selling old phones for discount vouchers on new purchases is attracting consumers, making the consumer-owned segment dominant in the market.

“E-waste includes complex mixtures of materials, which adversely impacts the environment. Therefore, mobile phone players should focus on recycling and reusing old products to maintain a sustainable environment and reduce e-waste”, says the PMR analyst.
