The rising use of HPMC across the pharmaceutical, healthcare, food and beverage (F&B), and construction sectors is one of the major factors driving the market growth. In the F&B industry, it is used as a stabilizer, thickening agent, and emulsifier and is extensively used for the manufacturing of sauces, toppings, ketchup, and bakery products. In addition to this, the

increasing health consciousness among consumers and the surging demand for low-fat food products are also driving the market growth. Moreover, the growing demand for HPMC in the manufacturing of paints, coatings, dyes, [eye](#) drops, and oral medications and the rising focus on personal health and hygiene are creating a positive outlook for the market. Looking forward, IMARC Group expects the market to reach a volume of 186.8 Kilo Tons by 2027, exhibiting a CAGR of 5.18% during 2022-2027.

Global HPMC Market Summary:

- On the basis of the end-use, the construction industry exhibits a clear dominance in the market. Some of the other major end use sectors pharmaceuticals (including cosmetics), food industry and others.
- On the geographical front, China holds the leading position in the market, accounting for the majority of the overall global market. The other key regions include Western Europe, Other Asia, United States, Central/Eastern Europe, Middle East, South America and others.
- The competitive landscape of the market has been studied in the report with the detailed profiles of the key players. Some of these players include SE Tylose GmbH & Co. KG, Ashland Global Holdings Inc., The Dow Chemical Company, Shandong Head Co., Ltd, and LOTTE Fine Chemical.
