

Must High-Tech Expo announces Smart ID Day event to explore the Identity industry Trends and Innovations in 2022

We organize Smart ID Day event to bring together professionals, designers, engineers, innovators, influencers, manufacturers to explore innovations in 2022.

PARIS, FRANCE, February 1, 2022

/EINPresswire.com/ -- Looking to the progress made in the digital industry, it seems inevitable that the presentation of one's identity and all official documents also will be digitized.

Therefore, it is important today to protect and monitor your identity for your safety, to manage legal proof and decrease insurance cost. In addition, digital identity is KEY in our growing digital economy driven by increasing mobility, access to internet as well as IoT booming among various industry verticals such as Smart cities, healthcare and education.

“

Our high-tech community is growing very fast and with the Smart Identity live event we would like to give our community all the necessary assets to build their roadmap and develop their Business.”

Hanène Maupas, Must CEO.

The digital identity solutions to authenticate the identity of individuals are technologically driven by biometrics such as facial features/recognition, fingerprint, and voice however new technologies as blockchain, AI/ML and new regulations, standards are perceived as key for the next wave of the digital transformation. In this conference we will deep dive and explore the latest trends and innovations on the Smart Identity market, from Physical Identity including documents and devices to digital Identity and Access Management.

Among the speakers, you will meet technology leaders of the Identity industry as well as most recognized startups with disruptive technologies.
