

## Affordable Reverse Take-Over (RTO) solutions private co to OTC Markets public co by Mina Mar Group

Taking private company public via RTO reverse take over affordable economical solutions. From \$99,500 complete turn key package

WEST PALM BEACH, FL, UNITED STATES, February 1, 2022 /EINPresswire.com/ -- West Palm Beach, February 1, 2022 Mina Mar Group <a href="https://www.minamargroup.com">www.minamargroup.com</a> (MMG) a mergers and acquisitions (M&A) and Investor Relations (IR) firm proudly announces in concert with the new market making rules affordable <a href="https://www.minamargroup.com">RTO</a> solutions for companies looking to enter public markets.

"Last year has been quite challenging for many OTC issuers with the new rules that came into effect after some 30 odd years namely the 15c211 Rule; and by some estimates approximately 2500 companies ending up in the OTC "expert market" for one reason or another. We at MMG see challenges as opportunities. Simply put, the expert market is an already trading OTC company which did not or does not want to comply with full disclosure requirements governing public companies. Your private company by simply filing its current business plan, officers and directors CV and other info, can acquire an expert co, have MMG complete all the paperwork, file it with one of the market makers we work with and do the name change on the expert co name to your establishment (if you wish). In approximately 90 to 120 days you can own a fully current fully trading OTC or SEC reporting co for a fraction of the price of buying an already existing OTC shell.

For example, and due to current economic conditions and recent rule changes public co fetch upwards of \$500,000 plus soft costs. ! Anyone looking to enter the financial markets must count on other soft costs which can sometimes overshadow the original had cost investment. MMG turnkey solutions start at a fraction of the traditional RTO" concluded MMG CEO Miro Zecevic
