SHERIDAN, WYOMING, UNITED STATE, February 1, 2022 /EINPresswire.com/ -- According to the latest report by IMARC Group "Corrugated Boxes Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2022-2027", The global [corrugated boxes market size](#) reached US\$ 193.8 Billion in 2021. Looking forward, IMARC Group expects the market to reach US\$ 225 Billion by 2027, exhibiting at a CAGR of 2.44% during 2022-2027.

Corrugated boxes are a type of packaging material that is manufactured by assembling layers of corrugated cardboard sheets. In comparison to cardboard boxes, these boxes are lightweight, crush resistant, highly durable, and flexible, as the air trapped between the layers creates a cushion effect. Moreover, corrugated boxes can withstand pressure and offer convenience to users while handling. Several manufacturers in different verticals have shifted from plastics-based packaging materials to biodegradable materials like corrugated boxes over the past few decades.

## Market Trends:

Rapid digitization, inflating disposable incomes, and hectic lifestyles have provided a thrust to online shopping, which, in turn, has increased the demand for corrugated boxes in different shapes and sizes. Besides this, numerous food outlets, like cafes and restaurants, are also adopting corrugated boxes for delivery purposes on account of the growing environmental concerns. They are also integrating innovative printing methods like photorealistic image printing in order to create attractive packaging. Furthermore, key players are investing in research and development (R&D) activities to enhance the performance of corrugated boxes and increase their applications across various verticals.
