

Cell Isolation Market Report 2021-26: Share, Size, Growth, Analysis and Forecast

IMARC Group expects the global cell isolation market to grow at a CAGR of around 17% during 2021-2026.

SHERIDAN, WYOMING, UNITED STATE, February 1, 2022 /EINPresswire.com/ -- According to the latest report by IMARC Group "Cell Isolation Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026", The [global cell isolation market](#) exhibited strong growth during 2015-2020. Looking forward, IMARC Group expects the market to grow at a CAGR of around 17% during 2021-2026.

Cell isolation, also known as cell separation, identifies, isolates and separates targeted cells from a heterogeneous mixture of a cell population. This process helps minimize experimental complexity, reduce the interference from other cell types, and diagnose diseases, cellular research and therapies. In recent years, cell separation has gained prominence as it plays a vital role in therapeutic protein production, in-vitro diagnostics and biologics designing.

Note: We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Market Trends:

The global cell isolation market is primarily driven by the expanding medical and pharmaceutical industry. Due to this, pharmaceutical manufacturers are using cell isolation technologies to develop drugs with improved efficacies. In addition, they are utilized to develop novel cell therapies and cell-based treatments for various chronic medical ailments. Besides this, with the onset of coronavirus disease (COVID-19), there has been rapid development of novel vaccines, therapies, and testing kits. This has escalated the demand for cell isolation tools for diagnostics and research activities. Moreover, increasing investments in research and development (R&D) by biotechnology and biopharmaceutical companies to manufacture advanced biologics, such as monoclonal antibodies and vaccines, provide a positive outlook to the market in the near future.

Breakup by Technique:

- Centrifugation
- Surface Marker
- Filtration

Breakup by Cell Type:

- Human Cells
- Animal Cells

Breakup by Product:

- Consumables
- Reagents, Kits, Media and Sera
- Beads
- Disposables
- Instruments
- Centrifuges
- Flow Cytometers
- Filtration Systems
- Magnetic-activated Cell Separator Systems

Breakup by Application:

- Biomolecule Isolation
- Therapeutics
- Stem Cell Research
- Cancer Research
- Tissue Regeneration
- In-Vitro Diagnostics

Breakup by End Use:

- Biotechnology and Biopharmaceutical Companies
- Hospitals and Diagnostic Laboratories
- Research Laboratories and Institutes
- Others

Market Breakup by Region:

- North America (United States, Canada)

Asia Pacific (China, Japan, India, South Korea, Australia, Indonesia, Others)
Europe (Germany, France, United Kingdom, Italy, Spain, Russia, Others)
Latin America (Brazil, Mexico, Others)
Middle East and Africa

Competitive Landscape with Key Player:

Alfa Laval AB
Becton Dickinson and Company
Beckman Coulter Inc. (Danaher Corporation)
Bio-Rad Laboratories Inc.
General Electric Company
Merck KGaA
Miltenyi Biotec B.V. & Co. KG
pluriSelect Life Science UG (haftungsbeschränkt) & Co. KG
Roche Holding AG
STEMCELL Technologies Inc.
Terumo Corporation
Thermo Fisher Scientific Inc.

About Us

IMARC Group is a leading market research company that offers management strategy and market research worldwide. We partner with clients in all sectors and regions to identify their highest-value opportunities, address their most critical challenges, and transform their businesses.

IMARC's information products include major market, scientific, economic and technological developments for business leaders in pharmaceutical, industrial, and high technology organizations. Market forecasts and industry analysis for biotechnology, advanced materials, pharmaceuticals, food and beverage, travel and tourism, nanotechnology and novel processing methods are at the top of the company's expertise.
