

Oat Milk Market Report 2021-26: Share, Size, Trends, Growth, Analysis and Forecast

IMARC Group expects the global oat milk market to grow at a CAGR of around 8% during 2021-2026.

SHERIDAN, WYOMING, UNITED STATE, February 1, 2022 /EINPresswire.com/ -- According to the latest report by IMARC Group, titled, "Oat Milk Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026", The [global oat milk market](#) exhibited strong growth during 2015-2020. Looking forward, IMARC Group expects the market to grow at a CAGR of around 8% during 2021-2026.

Oat milk is a plant-based, lactose-free, vegan-friendly milk substitute made from oats. Its production process includes soaking, blending, and straining oats. This milk can be taken in its raw form and as a natural sweetener with added flavorings, such as dates, vanilla, and cinnamon. It is rich in vitamin B, folate, manganese, zinc, magnesium, thiamine, phosphorus and copper. The consumption of oat milk improves bone health and lowers blood cholesterol.

Market Trends:

The growing inclination towards the consumption of oat milk as an ideal dairy milk substitute is primarily driving the demand for oat milk across the globe. Other than the similar taste, oat milk is gaining traction due to its health profile and sustainability features. Moreover, several key manufacturers are adopting innovative ways to extract oat milk to gain unique selling points and differentiate their products in local markets. At present, numerous market players are collecting high-quality raw materials directly from farmers to make the final product cost-effective, which is providing a positive outlook to the market. Various other factors, including the rising number of lactose-intolerant individuals and the availability of oat milk in convenient packaging solutions, are expected to further propel the market growth in the coming years.

The report has segmented the market on the basis of Product Type, Distribution Channel, Packaging Type and Region.

Breakup by Source:

Organic
Conventional

Breakup by Product:

Plain
Flavored

Breakup by Packaging Type:

Cartons
Bottles
Others

Breakup by Application:

Food
Beverages

Breakup by Distribution Channel:

Supermarkets and Hypermarkets
Grocery Stores
Online Stores

Others

Breakup by Region:

North America (United States, Canada)

Asia Pacific (China, Japan, India, South Korea, Australia, Indonesia, Others)

Europe (Germany, France, United Kingdom, Italy, Spain, Russia, Others)

Latin America (Brazil, Mexico, Others)

Middle East and Africa

As the novel coronavirus (COVID-19) crisis takes over the world, we are continuously tracking the changes in the markets, as well as the industry behaviours of the consumers globally and our estimates about the latest market trends and forecasts are being done after considering the impact of this pandemic.

If you want latest primary and secondary data (2021-2026) with Cost Module, Business Strategy, Distribution Channel, etc. Click request free sample report, published report will be delivered to you in PDF format via email within 24 to 48 hours of receiving full payment.
