

You Need To Know About Urinary Incontinence | Johnson & Johnson

Urinary incontinence device market was valued at \$2,098.65 million in 2020, and is projected to reach \$6,179.32 million by 2030, registering a CAGR of 11.8%

PORTLAND, OREGON, UNITED STATES, February 1, 2022 /EINPresswire.com/ -- According to the report by Allied Market Research, titled, "[Urinary Incontinence Device Market](#) by Product (Urinary Catheters, Vaginal Slings, Electrical Stimulation Devices, Artificial Urinary Sphincters, and Other Devices), Category (External Urinary Incontinence Devices and Internal Urinary Incontinence Devices), Incontinence Type (Stress Incontinence, Urge Incontinence, Overflow Incontinence, and Functional Incontinence), and End User (Hospitals, Clinics, and Other): Global Opportunity Analysis and Industry Forecast, 2021–2030.". The report provides a detailed analysis of changing market dynamics, top segments, value chain, key investment pockets, regional scenario, and competitive landscape.

Development of innovative urinary incontinence devices, surge in demand for minimally invasive procedures, and rise in risk of urological disorders drive the global urinary incontinence device market. However, lack of awareness regarding novel developments in the urinary incontinence devices, underreported cases of urinary incontinence, and post-operative complications associated with the devices hinder the market growth. On the other hand, increase in healthcare expenditures in the developing countries present new opportunities in the coming years.
