The author’s advice for those going through the cancer journey: don’t stop asking questions, and don’t forget to pray for help and understanding in fighting a battle you cannot win alone. Be sure to thank your team.

"I, Dr. Bryan M. Steinberg of Rockville, Maryland, developed tongue cancer in 2017. I am the surgeon mentioned in the book – The Journey Through Cancer – How to lose 25 lbs. Without Diet or Exercise and Be Cancer Free in 8 Months and treated Betty Serritella's lung cancer in 2014."

"My cancer was a challenge for the doctors. I was treated at the Sloan Kettering Hospital in New York City. I read 'The Journey...' several times for hope, direction, and faith. The monumental process was in the book. After all, I helped write the process. My hope was in my family, and my faith was in the doctors and the support team."

"When Betty and Jim Serritella visited my office for her annual checkup in September 2020, my first words to them were, 'Your book saved my life.' Jim was shocked and in awe to hear this comment. My story is about how 'The Journey...' provides hope for the patient, family members, support staff, and caregivers. This book is a must-read for all cancer-affected individuals. Thank you, Jim."
