

Multi-access Edge Computing Market Seeking New Highs- Current trends and growth drivers

Report presents information related to key drivers, restraints, and opportunities along with detailed analysis of the multi edge access computing market share.

PORTLAND, OR, UNITED STATES,
February 2, 2022 /EINPresswire.com/ --

Rise in adoption of multi edge access computing, owing to its numerous benefits such as reduced energy consumption, lower operating cost, application latency reduction,

streaming data, and real time analytics drives growth of the market. In addition, rise in deployment of 5G network, increase in adoption of IoT, and rise in need among enterprises to deliver Quality of Experience and back haul reduction are some other factors that affect growth of the [Multi-access Edge Computing market](#) positively. However, lack of required infrastructure and growth in cyber-attacks hinder growth of the market. Furthermore, emerging augmented and virtual reality application with multi-access edge computing is expected to create numerous opportunities for the market.

Major players analyzed in the market include Microsoft Corporation, Advantech Co Ltd., HP Enterprise Development LP., Saguma Networks Ltd., Adlink Technology Inc ., Brocade Communications Systems., Fujitsu Technology Solutions, IBM Corporation, Intel Corporation and NEC Corporation
