

Protein Detection & Quantification Market - Industry Trends, Size, Share, Growth and Forecast 2027

SHERIDAN, WYOMING, UNITED STATES, February 2, 2022 /EINPresswire.com/ -- According to the latest report by IMARC Group, titled "[Global Protein Detection & Quantification Market](#): Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2022-2027," the market to grow at a CAGR of XX% during 2022-2027.

[Protein](#) detection and quantification represent the techniques that are adopted by scientific experts to determine the characteristics of a protein and its total protein content.

Some widely utilized protein detection and quantification methods include Enzyme-Linked Immunosorbent Assay (ELISA), western blot analysis, nanoparticles and nanopore-based procedures, mass spectrometry, etc. These techniques assist in comparing two distinctive protein samples, verifying the success of the lysis step, measuring enzyme kinetics, etc. Consequently, protein detection and quantification are widely adopted across academic institutions, research organizations, biotechnology firms, etc., for research studies and clinical diagnosis.

As the novel coronavirus (COVID-19) crisis takes over the world, we are continuously tracking the changes in the markets, as well as the industry behaviours of the consumers globally and our estimates about the latest market trends and forecasts are being done after considering the impact of this pandemic.

Global Protein Detection & Quantification Market Trends:

The expanding pharmaceutical industry and numerous technological advancements in biotechnology are among the primary factors driving the protein detection & quantification market. Besides this, the growing adoption of immunoassay techniques and infrared

Protein Detection & Quantification Market Report

spectroscopy, which help experts attain accurate results, is further propelling the market growth. Moreover, the rising investments into research and development (R&D) activities in the field of proteomics are acting as significant growth-inducing factors. In addition to this, the elevating incidences of several chronic illnesses, such as cancer, are catalyzing the need to diagnose diseases at a molecular level to develop effective treatments. This, in turn, is also augmenting the global market. Furthermore, the escalating innovations in the genomics sector and the continuous upgradation of existing healthcare infrastructures are expected to fuel the protein detection & quantification market over the forecasted period.

Global Protein Detection & Quantification Market 2022-2027 Analysis and Segmentation:

Competitive Landscape:

The competitive landscape of the market has been studied in the report with the detailed profiles of the key players operating in the market.

American Athletic Shoes Company, EDEA srl, Graf Skates AG, Jackson Ultima Skates, John Wilson Skates Limited, K2 Sports LLC (Newell Brands), Paramount Sk8s Inc., Riedell Shoes Inc., Roces S.r.l., Rollerblade (Tecnica Group S.p.A), SP-Teri Inc. and Winnwell Inc.

The report has segmented the market on the basis on region, disc type, material type and end user.

Breakup by Product Type:

Kits and Reagents/Consumables
Instruments
[Services](#)

Breakup by Technology:

Colorimetric Assays
Immunological Methods
Chromatography
Mass Spectrometry
Spectroscopy Instruments
Others

Breakup by Application:

Drug Discovery and Development
Clinical Diagnosis
Others

Breakup by End User:

Academic Research Institutes
Biotechnology and Pharmaceutical Companies
Contract Research Organization
Others

Breakup by Region:

North America (United States, Canada)
Asia Pacific (China, Japan, India, South Korea, Australia, Indonesia, Others)
Europe (Germany, France, United Kingdom, Italy, Spain, Russia, Others)
Latin America (Brazil, Mexico, Others)
Middle East and Africa

Key highlights of the report:

Market Performance (2016-2021)
Market Outlook (2022-2027)
Porter's Five Forces Analysis
Market Drivers and Success Factors
SWOT Analysis
Value Chain
Comprehensive Mapping of the Competitive Landscape

If you need specific information that is not currently within the scope of the report, we can provide it to you as a part of the customization.

If you want latest primary and secondary data (2021-2026) with Cost Module, Business Strategy, Distribution Channel, etc. Click request free sample report, published report will be delivered to you in PDF format via email within 24 to 48 hours of receiving full payment.

About Us

IMARC Group is a leading market research company that offers management strategy and market research worldwide. We partner with clients in all sectors and regions to identify their highest-value opportunities, address their most critical challenges, and transform their businesses.

IMARC's information products include major market, scientific, economic and technological developments for business leaders in pharmaceutical, industrial, and high technology organizations. Market forecasts and industry analysis for biotechnology, advanced materials, pharmaceuticals, food and beverage, travel and tourism, nanotechnology and novel processing methods are at the top of the company's expertise.
