

"Mahzooz" Nile crocodile translocation from Jordan to Sudan

AMMAN, JORDAN, February 2, 2022
/EINPresswire.com/ --

The Nile crocodile, *Crocodilus niloticus*, is a large crocodile species found in the Nile basin. It is a protected species under the Convention on International Trade in Endangered Species (CITES) and the Regional Species Conservation Network (RSCN). The translocation of Nile crocodiles from Jordan to Sudan is a significant conservation effort. The crocodile, named "Mahzooz", was captured in Jordan and is being transported to Sudan for release. The translocation is being carried out by IFAW (International Fund for Animal Welfare) in collaboration with the Jordanian Ministry of Environment, Planning and Economic Development. The crocodile is being transported in a specialized container to ensure its safety during the journey. The translocation is expected to contribute to the conservation of the Nile crocodile population in Sudan.
