

# Announcing TMMi America's New Board of Directors

PFLUGERVILLE, TX, UNITED STATES, February 3, 2022 /EINPresswire.com/ -- We are excited to welcome our new Board of Directors who will help us accomplish our goal of helping Organizations improve their software and system testing to achieve higher sustainable levels of product quality for the systems they are developing and maintaining through the Test Maturity Model Integrated (TMMi).

The Test Maturity Model Integrated (TMMi) model is independent, business centered and internationally proven which allows it to provide a path for Organizations to assess and improve their test processes in a cost-effective manner. The TMMi is an avenue for formal certification if needed.

The new Board is effective immediately for a 2 year term and they represent a diverse group of practitioners across North and South America. The new Board of Directors are:

- Mark Summers, □ President
- Suresh Chandra Bose, □ Vice President
- Suresh Krishnaiah, □ Treasurer
- Sammy Kolluru, □ Secretary
- Mike Ennis, □ Director
- Gary Rueda Sandoval, □ Director

TMMi America would like to express their gratitude to the previous Board members and especially former president Rex Black and former Secretary Tom Cagley. During their tenure as officers, their vast testing and similar Board experience was essential to our successful formation. They taught us how to effectively operate our Board, grow the Organization and have fun while doing it. Thanks Rex & Tom!

Mark Summers, President, stated, "We are looking forward to helping Organizations transform

the way they rapidly deliver high quality secure systems that provide value to their end users. We believe that expanding the adoption of TMMi so that it becomes the de facto standard for test process assessment will enable these Organizational transformations.”

The TMMi Foundation is a non-profit organization registered in England. The Foundation is a non-profit organization dedicated to improving software quality management and test processes/practices. TMMi America provides local representation to the TMMi Foundation.
