Key findings of Castration-Resistant Prostate Cancer (CRPC) Therapeutics Market:

- North America CRPC market spearheads the regional CRPC markets and would continue to lead throughout the forecast period
- Radiotherapy segment is projected to grow at a CAGR of 24.5% throughout the forecast period, fastest among all CRPC therapy segments
- Immunotherapy segment is expected to grow more than threefold over the forecast period
- Asia Pacific CRPC market is expected to garner 1/5th of the overall market revenue by 2027
- European market is expected to expand more than two-fold as compared to North American market (within hormonal therapy segment) over the forecast period
- Countries like India and China holds immense future market potential as there is a higher count of undiagnosed CRPC patients.

The global CRPC market has witnessed high growth in the past few years and would continue to grow at a consistent pace due to the high unmet clinical need associated with the disease. Large amount of drugs in pipeline, augmented patient awareness and untapped nmCRPC space would largely drive the market growth during the forecast period.
