

The Advocate Urges a Navy Veteran with Recently Diagnosed Lung Cancer in Missouri to Call Attorney Erik Karst of Karst von Oiste If The Veteran Had Navy Asbestos Exposure Prior to 1982-Compensation May Exceed \$100,000

KANSAS CITY, MISSOURI , USA, March 25, 2022 /EINPresswire.com/ -- The Missouri US Navy Veterans Lung Cancer Advocate says, "We are appealing to a Navy Veteran who has recently been diagnosed with lung cancer anywhere in Missouri-and who had substantial exposure to asbestos on a navy ship, submarine or at a shipyard before 1982 to call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 to discuss financial compensation. Compensation for a Navy Veteran like the person we have just described might exceed \$100,000 and the claim does not involve suing the navy.

"The types of Navy Veterans with recently diagnosed lung cancer were probably exposed to asbestos in a navy ship's engine room, a ship-submarine's repair-machine shop, or as a member of a repair crew. Navy Veterans who spent time at a navy shipyard with their ship or submarine may have had extreme exposure to asbestos. For a Navy Veteran like this to get compensated it is vital they recall the specifics of how they were exposed to asbestos.

"If the person we have just described sounds like your husband or dad-and his lung cancer was

diagnosed within the last 12 months, and he can recall the specifics of how he was exposed to asbestos in the navy please call attorney Erik Karst of Karst von Oiste at 800-714-0303 to discuss compensation. We think you will be glad you did." www.karstvonoiste.com/

The Missouri US Navy Veterans Lung Cancer Advocate's free services are available to people with asbestos exposure lung cancer or mesothelioma in Kansas City, St. Louis, Independence, Columbia, Lee's Summit, O'Fallon, St. Joseph or anywhere in Missouri. <https://Missouri.USNavyLungCancer.Com>

High-risk work groups for exposure to asbestos in Missouri include Veterans of the US Navy, civilian workers at Whiteman Air Force base, power plant workers, factory workers, public utility workers, plumbers, welders, industrial workers, electricians, auto mechanics, machinists, and construction workers. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's. www.karstvonoiste.com/
