*The Business Research Company's
Community And Individual Services
Global Market Report 2022: Market Size,
Trends, And Global Forecast 2022-2026*

LONDON, GREATER LONDON, UK,
February 4, 2022 /EINPresswire.com/ --
According to '[Community And Individual Services Global Market Report 2022](#) – Market Size, Trends, And Global Forecast 2022-2026' published

by The Business Research Company, the community and individual services market size is expected to grow from \$1249.29 billion in 2021 to \$1401.64 billion in 2022 at a compound annual growth rate (CAGR) of 12.2%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The community and individual services market is expected to reach \$2137.46 billion in 2026 at a CAGR of 11.1%. Autism Spectrum Disorder (ASD) is a complex developmental disability. Training social service employees for autism child care counsellors, number of therapists and psychologists will increase and they are expected to serve more individuals and eventually generate more revenues.

individuals or families in need; or provide food, shelter, clothing, medical relief, resettlement, and counseling to victims of domestic or international disasters or conflicts (e.g., wars).

Global Community And Individual Services Market Trends

Community and individual services providers are increasingly using data-driven approach such as big data and predictive analytics to gather insights related to social assistance services. Predictive analytics involves the use of data, statistical algorithms and machine learning techniques to identify the likelihood of future outcomes based on historical data. Big data analytics involves extracting hidden patterns and useful information from a large set of data. These techniques help in reporting, detecting, or correcting a non-compliance while monitoring target population.
