

Online Reading Platform Market 2021 Comprehensive Research Study, Business Overview and Regional Forecast

*Online Reading Platform Market Trends –
High demand from North America*

VANCOUVER, BC, CANADA, February 6, 2022 /EINPresswire.com/ -- The Global Online Reading Platform Market Research Report added by Emergen Research to its expanding repository is an all-inclusive document containing insightful data about the Online Reading Platform market and its key elements.

[online reading platform market size](#) is

expected to reach USD 6.76 Billion in 2028 and register a revenue CAGR of 7.6% over the forecast period, according to the latest report by Emergen Research. Factors such as increasing use of portable reading devices such as smartphones and tablets, as well as growing consumer preference for reading books online or as an e-Book rather than in print are expected to drive global online reading platform market revenue growth during the forecast period.

The number of digital readers are increasing day by day as a result of increasing consumer preference for reading books online. Individuals currently prefer e-Books instead of carrying printed paper books around. Rapid adoption of smartphones and tablets is further boosting demand for e-Books, which is expected to drive revenue growth of the global market. Digital readers, also known as e-Readers, have gained steady popularity among a wide range of consumers in recent years. Students are the audience who have gained a major benefit owing to no need to carry around a heavy schoolbag with books. Also, retirees and others wanting to have access to reading material without the need to stock up on a home library can do so on online reading platforms for a more convenient reading experience.

The report is formulated through extensive primary and secondary research and is curated with an intent to offer the readers and businesses a competitive edge over other players in the industry. The report sheds light on the minute details of the Online Reading Platform industry

pertaining to growth factors, opportunities and lucrative business prospects, regions showing promising growth, and forecast estimation till 2027.
