

Blood Gas and Electrolyte Analyzers Market: Fresh blood needn't improve patient outcomes

North America is expected to dominate the global blood gas and electrolyte analyzer market during the forecast period.

PORTLAND, OREGON, UNITED STATES, February 7, 2022 /EINPresswire.com/ -- According to the report by Allied Market Research, titled, "[Blood Gas and Electrolyte Analyzers Market](#) by Type [Analyzers/Instruments by Product Type (Blood Gas Analyzers, Electrolyte Analyzers, and Combined Analyzers), and Modality (Portable, Benchtop, and Laboratory) and Consumables], Product/Brand (i-STAT, GEM Premier, ABL Flex, RAPID Series, Cobas, and Others), and End User (Hospitals, Clinics, Ambulatory Surgical Centers, and Others) - Global Opportunity Analysis and Industry Forecast, 2022-2028". The report provides a detailed analysis of changing market dynamics, top segments, value chain, key investment pockets, regional scenario, and competitive landscape.

Blood gas analyzers are used to measure different parameters, such as pH, blood gas (pCO₂ and pO₂), electrolytes, and metabolites, from the whole blood samples. Growth in number of patients being treated in ICUs, NICUs, and emergency departments; rise in number of patients suffering from chronic diseases; technological advancement in blood gas & electrolyte analyzers, and increase in number of product approvals are the major factors driving the market growth. However, complexity involved in the interpretation of data act as a restraining factor for the market growth. Increase in investment by major medical diagnostics giants and improvement in healthcare facilities in Asia-Pacific provides growth opportunities for the market.

Comprehensive competitive analysis and profiles of major market players, such as

The major companies profiled in the report include Radiometer Medical Aps (A Subsidiary of Danaher Corporation) (Denmark), Instrumentation Laboratory (A Werfen Company) (U.S.), Siemens AG (Germany), Roche Diagnostics Limited (Switzerland), Abbott Laboratories, Inc. (U.S.), Nova Biomedical (U.S.), OPTI Medical Systems, Inc. (A Subsidiary of Idexx Laboratories, Inc.) (U.S.), ERBA Diagnostics Mannheim GmbH (Germany), Medica Corporation (U.S.), and Alere, Inc. (U.S.)

Key Benefits For Stakeholders:

- The study provides an in-depth analysis of the Blood Gas And Electrolyte Analyzers Market along with the current trends and future estimations to elucidate the imminent investment pockets.
- It offers Blood Gas And Electrolyte Analyzers Market analysis from 2022 to 2028, which is expected to enable the stakeholders to capitalize on the prevailing opportunities in the market.
- A comprehensive analysis of four regions is provided to determine the prevailing opportunities.
- The profiles and growth strategies of the key players are thoroughly analyzed to understand the competitive outlook of the global Blood Gas And Electrolyte Analyzers Market growth.
