

Critical National Infrastructure Cyber Security Market | Depth Analysis and Industry Forecast, 2020-2030

The global Critical National Infrastructure Cyber Security market size is projected to reach multi-million by 2030, in comparison to 2020.

PORTLAND, PORTLAND, OR, UNITED STATE, February 8, 2022

/EINPresswire.com/ -- The [critical national infrastructure cyber security market](#) is expected to register substantial growth in the near future, attributed to increased cyber-attacks & security breaches, growth in demand for cloud-based services, and government initiatives related to digitalization.

However, factors such as lack of skilled professionals, technology awareness, and complexity in the deployment of security infrastructures are projected to restrain the growth of the market.

The report segments the critical national infrastructure cyber security market growth on the basis of security type, end-user, and geography. On the basis of security type, the market is divided into network security, wireless security, cloud security, and others.
