SARATOGA SPRINGS, NY, UNITED STATES, February 9, 2022

/EINPresswire.com/ -- To study Dr. Bruce Piasecki's work is to study the changing nature of work itself, and to reflect on how the best firms compete and thrive. Piasecki builds himself on the shoulders of other giants like Jim Collins, and Harvard's business gurus, as well as on the shoulders of the six leaders he has written biographies about. But what matters is his insight into what will help your life, your career, your family and friends.

Bruce Piasecki

The future of work is changing because the world is changing. In today's world it largely explores our processes and workflows as they are related to modern technologies that are evolving and increasingly disruptive. A globalized society needs to take more care and understand disruption and innovation in this time of carbon and capital constraints.

“

A thoughtful and absorbing read, with a message to the world. Bruce Piasecki writes with energy and a vision.”

Jay Parini, International Best-Selling Author of The Last Station

In Piasecki's newest book, *A New Way to Wealth* available on all bookseller sites beginning March 22, 2022, he challenges you by asking what is wealth and what is enough, and urges you to take action. He urgently calls for a new era of restraint, public mindedness, and social purpose in capitalism. This homage to historical financial leaders allows an understanding between self-determination and self-actualization in a time of capital

constraints.

A New Way to Wealth helps you understand which attributes lead to the accumulation of wealth and using that wealth responsibly. Piasecki breaks open the differences between self-determination and self-actualization in a time of capital constraints. We are after all global citizens, humankind, children of one Earth. This book gives you a “just-in-time” perspective challenging our status quo. He offers an intelligent guide for a successful future, while acknowledging what makes this a swift and severe new world.

Piasecki’s A New Way to Wealth was inspired by the wisdom of Ben Franklin—and his competitive insights into [frugality](#). He incorporates his knowledge of corporate governance, energy, product, and environmental strategy to build a path to success and the full glory of wealth by doing more with less!
