

AV-Comparatives Awards 2021 for FireEye

FireEye participated successfully in AV-Comparatives' Enterprise Main Test Series of 2021.

INNSBRUCK, TYROL, AUSTRIA, February 25, 2022 /EINPresswire.com/ -- [FireEye](#) participated successfully in [AV-Comparatives' Enterprise Main Test Series](#) of 2021. The tests covered a variety of protection scenarios, system performance, and false positives.

FireEye Endpoint Security provides a cloud-based console for managing the endpoint protection software. A variety of console types is available. These include cloud-based, hardware appliance, virtual appliance, and Amazon-hosted. We describe the cloud-based console in this review. As well as malware protection, the product includes investigative functions for analysing and remediating attacks. The product is designed to handle very large organizations, with support for up to 100,000 endpoints per appliance.

AV-Comparatives' tests are very carefully designed and executed to thoroughly and realistically simulate scenarios that face users in real life. Consequently, a certification by AV-Comparatives is a guarantee of an effective and reliable product. An "Approved Product" award means that the software has been rigorously checked to ensure that it will perform its intended task competently. It is an industry-recognised standard of quality.

AV-Comparatives' tests have multiple aspects, to represent the different requirements of IT security solutions. Further awards highlight the effectiveness of individual programs in different

protection scenarios, low false positives, and low impact on system performance. Users can thus see which programs score highly in the categories that matter most to them.

AV-Comparatives is an independent testing lab based in Innsbruck, Austria, that tests IT security products to see if they live up to their promises. AV-Comparatives is ISO 9001:2015 certified, having received a certificate from TÜV Austria for the scope "Independent Tests of Anti-Virus Software". AV-Comparatives is also the first av-test organisation to be certified by European Expert Group for IT-Security (EICAR) as an EICAR Trusted IT-Security Testing Lab.

AV-Comparatives Awards for FireEye

FireEye performed creditably in AV-Comparatives' Enterprise Main Test Series of 2021. This included a number of rigorous tests, covering different protection scenarios, false positives, and impact on system performance. FireEye Endpoint Security was able to master all of these, and so received an Approved Business Security Product Award for both runs of the series.

FireEye Endpoint Security also won an Approved Mac Security Product certification.
