

# Antiviral Drugs Market is anticipated to rise at an impressive CAGR of 12% over the next ten years [2022-2030]

*The study provides an in-depth analysis of the market with current trends and future estimations to elucidate the imminent investment pockets.*

NE WIN SIVERS DRIVE, PORTLAND, UNITED STATES, February 9, 2022 /EINPresswire.com/ -- According to the report by Allied Market Research, titled, "[Antiviral Drugs Market](#) by Mechanism of Action (Nucleotide Polymerase Inhibitors, Reverse Transcriptase Inhibitors, and Protease Inhibitors), Type (Generic Drugs and Branded Drugs), and Application (HIV, Hepatitis, Herpes, and Influenza) - Global Opportunity Analysis and Industry Forecast, 2020-2030". The report provides a detailed analysis of changing market dynamics, top segments, value chain, key investment pockets, regional scenario, and competitive landscape.

The global antiviral drugs market is driven by increase in the incidence rate of viral infections. In addition, rise in R&D activities and development of newer & advanced formulations, such as vaccines and combination therapy, are expected to propel the market growth. However, high cost involved in drug development and growth in the demand for alternative medicines such as naturopathy and homeopathy restrain the market growth. Moreover, development of broad-spectrum antibiotics and growth opportunities in the emerging economies of Asia-Pacific and LAMEA regions are expected to provide numerous opportunities for the market growth during the forecast period.

1) The COVID-19 impact on the Antiviral drugs market is unpredictable and is expected to remain in force till the fourth quarter of 2021.

2) The COVID-19 outbreak forced governments across the globe to implement strict lockdowns and banned import-export of nonessential items for most of 2021. This led to sudden fall in the availability of important raw materials.

3) Moreover, nationwide lockdowns forced manufacturing facilities to partially or completely shut their operations.

4) Adverse impacts of the COVID-19 pandemic have resulted in delays in activities and initiatives regarding development of reliable and innovative drone analytics systems globally.
