

The Advocate Strongly Encourages the Family of a Navy Veteran with Lung Cancer in Florida to Call Attorney Erik Karst of Karst von Oiste if Before 1982 he had Navy Asbestos Exposure-Compensation May Exceed \$100,000

TAMPA, FLORIDA, USA, March 31, 2022 /EINPresswire.com/ -- The Florida US Navy Veterans Lung Cancer Advocate says, "If your husband or dad is a Navy Veteran who has just been diagnosed with lung cancer anywhere in Florida, please call attorney Erik Karst of Karst von Oiste at 800-714-0303 if before 1982 they had significant exposure to asbestos on a navy ship, submarine or at a navy shipyard. Financial compensation for a person like this might exceed \$100,000 and the claim does not involve a lawsuit against the navy. Additionally, it does not matter if the person smoked cigarettes.

"What does matter is the Navy Veteran with recently diagnosed lung cancer can recall the specifics of how they were exposed to asbestos in the navy. To qualify the Navy Veteran must have been diagnosed with lung cancer within the last 12 months and their asbestos exposure must have occurred before 1982.

"If the person we have just described sounds like your husband or dad in Florida or anywhere in the USA please call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303."

High-risk work groups for exposure to asbestos now living in Florida include US Navy Veterans, power plant workers, shipyard workers, oil refinery workers, steel mill workers, miners, manufacturing workers, public utility workers, plumbers, welders, electricians, auto mechanics, machinists, or construction workers. Most people who are diagnosed in Florida were probably exposed to asbestos in the Northeast or Midwest. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's.

“

If the person we have just described sounds like your husband or dad in Florida or anywhere in the USA please call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303.”

*Florida US Navy Veterans
Lung Cancer Advocate*

The US Navy Veterans Lung Cancer Advocate says, “If your husband, dad, coworker or neighbor has just been diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never get compensated-even though the asbestos trust funds were set up for them too. We are trying to change this sad fact.” <https://USNavyLungCancer.Com>

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware. www.karstvoniste.com/
