

Global Automated Material Handling (AMH) Market Analysis By End User (Automotive, Pharmaceuticals, Post and Parcel)

HYDERABAD, TELANGANA, INDIA,
February 10, 2022 /EINPresswire.com/
-- Automated Material Handling (AMH)
Market Forecasts to 2028 – Global
Analysis By System Type (Unit Load
Material Handling Systems, Bulk Load
Material Handling Systems), Software &
Services, Equipment Type, and By
Geography

The Global Automated Material Handling (AMH) Market is accounted for \$37.65 billion in 2021 and is expected to reach \$60.47 billion by 2028 growing at a CAGR of 7.0% during the forecast period. Automated material handling is a concept derived from material handling practices, which uses several types of machinery to help workers in a manufacturing establishment move the product under construction between assembly stations or moving completed goods to storage facilities. Automated material handling (AMH) equipment eliminates the need for human interference in a material handling process. Continuous rise in demand for automation with the advent of technologies such as robotics, wireless technologies, and driverless vehicles in different industries like food and beverages, retail, general manufacturing, pharmaceuticals, and post & parcel has revolutionized the adoption of automated material handling the equipment.

The warehouse management system (WMS) segment is anticipated to witness the fastest CAGR growth during the forecast period owing to the increasing globalization of supply chain networks, growing awareness about WMS among small and medium-sized enterprises (SMEs), and rising adoption of cloud-based warehouse management system solutions. Asia Pacific is projected to hold the largest market share during the forecast period due to the boundaries like developing interest for assembling cycle and stockroom units. North America is projected to have the highest CAGR over the forecast period owing to the rapid growth in the sales through e-commerce market, rise in demand for durable and non-durable goods eventually compelling manufacturing companies to adopt extensive assembly lines and material handling equipment.

Some of the key players profiled in the Automated Material Handling (AMH) Market include Bastian Solutions, Inc., Bosch Rexroth, Daifuku Co. Ltd, Dematic Group S.A.R.L, JBT Corporation,

KION Group, Murata Machinery Ltd., Siemens AG, SSI Schaefer AG, Swisslog Holding AG, Toyota Industries Corporation, and Yale Europe Materials Handling.
