About We Perform It:

We Perform It is an online rehearsal and recording platform. Started by two friends who, having finished writing a sitcom, found there was no suitable online platform which enabled them to communicate virtually, view their script, act out in a group and record all in one place – so they decided to build their own - thus We Perform It was born.

The platform is designed with the user in mind: a 'one stop shop' where casts can record their performances, share their own scripts or ones of all genres provided by our script partners. You can simply edit and mix with music and background sounds - all remotely! Get together when you can't be together.
