and CEO of The DCRO  
Institute*

Sethu serves as the Chief Risk Officer of MphasiS, an applied technology services company based in Bangalore, India. In his role, he manages an integrated risk management program across various risks, including strategic, business, operational, cyber security, privacy, fraud, and M&A. He was the founding Chair of the Bangalore chapter of ASIS International a global association of security professionals(2016) and Program Director for ISACA Hyderabad Chapter(2009). Sethu is the first professional in India awarded this notable

distinction.

"Sethu has shown consistent dedication to this program and brings a diverse background across a variety of risk domains to his work and study," said David R. Koenig, President and CEO of the DCRO Institute. "As he works with board members and ascends to board membership, this diversity and focus on the positive aspects of dealing with risk will serve him and his companies well," he continued.

The Certificate in Risk Governance® is awarded to those who have completed an intensive 17-course education program and evaluation. The curriculum is designed for current and aspiring board members who seek to advance the governance of risk-taking at their organizations and those who interact with boards. Taught by some of the world's leading figures in risk governance, the program features lessons by nearly 50 board members, c-level executives, and well-known

authors from five continents.

"This is a must-go-through program for aspiring chief risk officers and board directors as it helps in the orbital movement to thinking like a director," said Mr. Raman. "It is the quintessence of all a director should know and practice to guide a company's value creation process as they navigate the VUCA world of business with Grey Rhinos, White Elephants, and Black Swans."

The Certificate in Risk Governance® program, also known as The Board Members' Course on Risk®, is unique. No course on risk for board members as robust as this - depth, practicality, and global expertise - exists anywhere else. The fundamental Duty of Care for directors around risk is to ensure that our organizations take risks well in pursuit of our goals and ambitions. This course furthers the fulfillment of that duty.
