"I first learned of the WBENC Certification and how having this certification could help our company in 2019. It took me over a year to complete the paperwork and receive the certification. It's intensely scrutinized because it is such a highly valued certification," shares Laura Basenese, President & CEO.

The WBENC standard of certification is a meticulous process including an in-depth review of the business and site inspection. The certification process is designed to confirm the business is at least 51% owned, operated, and controlled by a woman or women.

By including women-owned businesses among their suppliers, corporations and government agencies demonstrate their commitment to fostering diversity and the continued development of their supplier diversity programs.
