

# Well Woman Exam with PAP on Fridays at Primary Care Walk in Clinic

*Ms. Katie Romanieckie, APRN joined Primary Care Walk-in Clinic in November 2021, seeing patients at both locations; New Port Richey and Spring Hill.*

NEW PORT RICHEY, FLORIDA, USA, February 12, 2022 /EINPresswire.com/ -- Ms. Katie Romanieckie, Family Practice certified APRN joined Dr. Dhaliwal, Board Certified Internist, in private practice since 1993 in New Port Richey and Ms. Eulora Michel, also Family Practice certified APRN working at Spring Hill office for over 5 years.

Ms. Katie works mainly at the Spring Hill location Monday through Thursday and goes to New Port Richey office on Fridays. Katie always had been interested in the well-being of women and she is instrumental in making Fridays for Well Women check-ups including PAP smears and Mammograms. Ms. Eulora does such examinations in Spring Hill office. For patients that do not have insurance, it will cost \$199 for PAP smear and office visits.

Mammograms usually cost on average \$50, starting at the age of 40 to 45 years. PAP smear is recommended for women aged 21 to 60 years.

Family Certified Nurse Practitioner

Well Women Exam with PAP on Fridays with Nurse Practitioners, Ms. Katie in New Port Richey & Ms. Eulora in Spring Hill”

*Gunwant Dhaliwal, MD*

Primary Care introduced COVID testing (Antigen and Antibody) before any other medical clinics starting July 2019 and then Moderna Vaccination at both locations. They get Moderna Vaccine supply from the Federal Government directly and given to patients free of charge though insurance patients are billed for administration fee. Non-insurance patients get the vaccination totally free. Patients have to call and make an appointment to each office since each vial of vaccine has 10 to 20 shots that

need to be consumed in 6 hours otherwise it is wasted.

EVERYBODY SHOULD BE VACCINATED, IF NOT FOR THEMSELVES IT IS FOR THEIR FAMILY AND/ OR CO-WORKERS. BOOSTERS ARE RECOMMENDED EVERY 6 MONTHS. Exception: if someone gets COVID Positive, they have to wait for 90 days before getting Vaccination.

Primary Care Walk-in Clinic (both locations) treats COVID Positive patients with Prednisone, Tamiflu and Z-Pack irrespective of whether they are symptomatic or not. They are checked again in 7 days. Most of them are negative. The repeat positive ones, if positive and symptomatic, they are treated with Doxycycline and sent for CXR. Patients that show Pneumonia on CXR, are treated with 1 gram Rocephin I/M daily for 10 days.

The federal government has made available Auto Antibodies by infusion and S/Q injections at some locations. Primary Care Walk-in Clinic has applied to become an infusion center.

COVID rapid antigen testing from Nose and rapid Antibody from finger stick drop of blood are billed to Insurances. Urgent Care (Medicaid HMOs) and non-insurance patients are charged \$25 each. Many families, workplaces and school children come to the office in groups to get their COVID status checked. We have seen un-vaccinated people showing positive COVID more commonly than those that are vaccinated.

CDC has recommended Booster Vaccine 6 months after the 2nd shot for all eligible patients. Even if you had the previous 2 vaccines at another place, you can get your 3rd vaccine at one of our locations. Per CDC guidelines, you can inter-change the vaccination Brand, i.e. patients that had Pfizer vaccine initially, can get Moderna Booster dose and Vice versa.

New Port Richey Office: 6329 State Road 54, New Port Richey, FL 34653. Tel. 727-844-5555

Family Certified Nurse Practitioner

Ms. Katie, Ms. Eulora & Drs. Dhaliwal

Spring Hill Office: 11123 County Line Road, Spring Hill, FL 34609. Tel. 352-666-5555. Website: <http://www.walkinclinics.com>

Most insurances, Medicare, Medicaid, Tricare, Auto Insurance and Worker's Comp are accepted at both offices. Many insurances are accepted are Primary Care while others (as Medicaid HMOs) could be accepted under Urgent Care.
