Skill development is an important part of The Infinity School's thinking-led curriculum. The Infinity School, being one of the [top schools in Greater Noida West](#), firmly believes that merely teaching theoretical concepts in school subjects is not enough. Children need to develop critical life skills at various stages in their life, as they progress from cradle to career in a digitally interconnected world. Developing 21st-century skills in students not only prepares them for academic and professional success but also aids them in facing unimaginable challenges in day-to-day life.

The Infinity School's well-rounded, thinking-led curriculum focuses on skill development and keeping the flame of curiosity burning in young minds. It is one of the top schools in India to use the Ei ASSET tool to benchmark students' skill development in classroom learning.

About Educational Initiatives & Ei ASSET Assessment:

Founded by three IIM Ahmedabad Alumni in 2001, Educational Initiatives (Ei) works with thousands of schools in India and the Middle East on assessing understanding-based learning in students and providing adaptive learning solutions like Mindspark. Currently, they are helping the CBSE board reform X & XII grade board examinations in India.

Ei ASSET is a skill-based assessment tool by Educational Initiatives that helps evaluate students' understanding of theoretical concepts and their applications in subjects like math, science, social studies, and languages (Hindi & English), grade III onwards. The diagnostic tool benchmarks a school's overall ranking at regional, national & international levels, based on student performances in an OMR or computer-based skill-assessment test covering the subject curricula taught in Africa, Gulf, India, Singapore, and UAE.

Besides ASSET, The Infinity School also uses the 'DETAILED ASSESSMENT'- another skill-based assessment program that helps students improve their academic performance in science, math & English. Both the aforementioned tools expose students to a variety of application-based

questions that require them to exercise their higher-order thinking skills, thus, improving their overall understanding of complex concepts.

A thinking-led curriculum, coupled with skill-based assessments & personalised classroom interventions, make The Infinity School, one of the top schools in Greater Noida West for students.
