

Global Oligonucleotide Therapy Market Size And Market Growth Opportunities

*The Business Research Company's
Oligonucleotide Therapy Global Market
Report 2022: Market Size, Trends, And
Forecast To 2026*

LONDON, GREATER LONDON, UK,
February 16, 2022 /EINPresswire.com/
-- According to 'Oligonucleotide
Therapy Global Market Report 2022 –
Market Size, Trends, And Global
Forecast 2022-2026' published by The

Business Research Company, the [oligonucleotide therapy market size](#) is expected to grow from \$0.98 billion in 2021 to \$1.10 billion in 2022 at a compound annual growth rate (CAGR) of 12.2%. The growth in the market is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The oligonucleotide therapy market is expected to reach \$1.86 billion in 2026 at a CAGR of 14.0%. The rise in the number of cancer cases across the globe is likely to contribute to the growth of the global oligonucleotide therapy market during the forecast period.
