

California Mesothelioma Victims Center Appeals to the Family of a Person Who Has Late-Stage Mesothelioma Anywhere in California to Call Attorney Erik Karst of Karst von Oiste to Ensure the Best Compensation

LOS ANGELES , CALIFORNIA , USA, April 5, 2022 /EINPresswire.com/ -- The California Mesothelioma Victims Center says, "If your husband or dad has just been diagnosed with late-stage mesothelioma anywhere in California-please make financial compensation a top priority and call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 for rock solid advice about what must be done. To ensure the best possible compensation it is vital the family know as much as possible about how their loved one was exposed to asbestos at work, or in the armed forces-navy.

"Without this specific type of information, the mesothelioma compensation process might get very difficult-if not impossible. If you dad or husband has just been diagnosed with advanced-late-stage mesothelioma, please try to get the following information:

- *"Does your loved one recall being exposed to asbestos at work or in the armed forces-navy?"
- * "Make a list of every place your husband or dad worked--including what his responsibilities were."
- * "Does your loved recall the names of co-workers or Veterans that might recall the specifics of

how he might have been exposed to asbestos?"

"We want people with mesothelioma to receive the best possible mesothelioma. With advanced-late-stage mesothelioma the victim's family must have a sense of urgency-if they want to see a good compensation result. For a family in this very difficult situation attorney Erik Karst of Karst von Oiste can be an amazing resource and guide. For direct access to attorney Erik Karst please call 800-714-0303."

High-risk work groups for exposure to asbestos in California include US Navy Veterans, power plant workers, shipyard workers, oil refinery workers, chemical plant workers, manufacturing workers, plumbers, electricians, auto mechanics, machinists, or construction workers. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's.
