

With their unconventional solutions and methods, they vow to revolutionize the design experience through [Archi-Typing](#), an intuitive profiling system that can analyze one's personal aesthetics, and [ARA](#) (Architectural Requirements Assessment) that aims to help clients have a better picture of their personal requirements. These can all be experienced through their famous [8-Step Design Methodology](#), where clients will be able to have a better picture of the whole process towards planning their dream projects.

With the help of Virtual Reality, clients have the option to immerse themselves inside the project and spot revisions early on in the schematic design phase.

"I've always had the vision of providing a seamless design experience," comments Ar. La Diaz, Principal Architect and founder at L.Ateliér Architects. "Through experience, I've realized that the best designs are created if you know your client deeply. With that said, I've made it my mission to provide a design process that is exciting, immersive, and collaborative to make clients look forward to the whole process," she adds.

L.Ateliér offers competitive design packages. Lighter payment arrangements and pay-per-use payment options are all you need to experience an exciting, immersive, and collaborative design journey towards planning your dream project.
