

Globally renowned custom product manufacturer EverLighten announces its entry into a new product line

The company has announced its entry into custom keychains manufacturing and is open to orders.

CHICAGO, IL, USA, April 22, 2022 /EINPresswire.com/ -- The globally respected custom products manufacturer [EverLighten](#) announced its entry into custom keychain manufacturing at the start of February. They have already started taking orders on their website. The global market of [custom keychains](#) is expected to grow at 4.3% in revenue during the forecast period (2019-2028).

As with all the other custom products, the customizing process is simple at EverLighten, focusing on complete customer satisfaction. Customers can choose from a wide range of custom keychains or upload their sketch/ image by visiting their website [EverLighten.com](#). They provide customers with complete customization options; customers can choose materials, colors, and sizes according to their requirements.

EverLighten is a world-renowned custom product manufacturer with over eighteen years of experience creating high-quality products. They produce merchandise like custom socks, patches, and more at the best price. One problem customers face finding a company willing to take small orders. Even if they find a company, they face the problem of charging a higher amount for small and fast orders. EverLighten solves this issue by accepting every order without restrictions on the order size.

Types of custom keychains available with EverLighten:

They are a versatile and helpful piece of product that helps to keep your keys organized and build your brand. A wide range of keychains is available at a competitive price, from custom embroidered keychains to PVC keychains.

Custom embroidered keychains:

These are personalized keychains created using various embroidery threads - one color for each thread. They are a perfect promotional gift for every occasion.

Custom metal keychains:

These are promotional keychains built using high-quality metals-alloys. They look pretty

premium and are treated with an anti-corrosion process to make them durable.

Custom PVC keychains:

These keychains are made using thermoplastic, i.e., polyvinyl chloride. They are lightweight, durable, and easily molded into a particular shape.

The company has also made it easy to order all custom products in only three steps, including keychains.

Request a quote: Customers can request a quote by providing a little information about the product. Their dedicated customer experts then contact customers to proceed further.

Design and sample: After customers provide a design, they create a free mockup and send it back for approval. The manufacturer creates a sample and sends it to customers for final confirmation.

Production and delivery: The experts check each item for its quality. The company provides its customers with tracking information to track their shipments.

Advantages of working with EverLighten for custom keychains:

Factory pricing: The company owns the factory, cutting the middleman, making it possible for its customers to get keychains at the factory price.

Fast turnaround with on-time delivery: They complete every order quickly; customers always get their delivery on time.

No minimum order limit: The company accepts every order without restrictions on the minimum order.

Free design help: Customers can upload their design ideas in sketches or images; experts help finish the design for free.

Quality check: The manufacturing experts check every item for its quality, ensuring only the items passing stringent quality standards reach customers.

Guaranteed money back: Customers can return the product with guaranteed money back if they are unsatisfied with the quality.

Free shipping: The company delivers to every part of the world for free.

Dedicated account manager: A dedicated account manager is provided to each customer to help resolve queries and communicate between different teams.

Real-time supply chain visibility: Customers can track their orders in real-time with an online order tracking tool.
