## Global Abrasives Market Trends:

The global market is primarily driven by significant growth in the automotive industry worldwide. This, in confluence with the increasing demand for commercial as well as passenger vehicles, is significantly contributing to the market growth. Apart from this, growing investments in R&D activities to produce innovative and less hazardous abrasives are creating a positive outlook for the market. Furthermore, the increasing demand for coated abrasives by end-use industries is catalyzing market growth. Additionally, the increasing demand for bonded abrasives, including grinding wheels, snagging wheels, and mounted wheels, due to their high efficiency and enhanced operational capability is also providing an impetus to the market growth.
