Geography

2021 - 2028 Global Access Control Market

The Global Access Control Market is accounted for \$8.75 billion in 2021 and is expected to reach \$17.84 billion by 2028 growing at a CAGR of 10.7% during the forecast period. Access control denotes a type of instrument in which a mechanism permits or nullifies the privilege to get some information or perform some activity to improve security by permitting an individual to modify the security protocols for the database and simultaneously control user access. These solutions are based on storing the identity of a person either by biometrics or access card. They verify the same to deliver access to a particular area in the enterprise. It assists in preventing unauthorized viruses and hackers to misuse personal information and safeguards personal data from getting hacked. The hardware segment is likely to hold the highest CAGR, due to the increasing adoption of the hardware sales-driven business model. North America is projected to hold the highest market share dominance is attributable to the growing adoption of cloud computing-based systems and the existence of established players that are developing advanced access control systems in the province. Asia Pacific is projected to have the highest CAGR, owing to the rising industrialization, commercialization, and the accelerating demand for security systems in various Asian countries.

Some of the key players profiled in the Access Control Market include 3M, Assa Abloy AB, BioEnable Technologies Pvt Ltd., Bosch Security and Safety Systems, Dormakaba Holding AG, HID Global, Honeywell International Inc., Johnson Controls, Matrix Comsec Pvt. Ltd., NEC Corporation, Paxton Access Ltd., Secom Co., Ltd., Spectra Technovision (India) Pvt. Ltd., STANLEY Convergent Security Solutions, Inc., Thales Group, and NEXT biometrics.
